Notice Regarding Network Issues due to Unauthorized Access

Some of the Asahi Intecc's Group networks experienced issues that affected access to certain systems, including email and file servers since November 10, 2020. Asahi Intecc has confirmed that unauthorized access had been made by a third party on the issues and has been promptly taking measures such as restricting access from the outside and suspending the operation of the internal network, and carrying out recovery work from the same day.

As a result, it is currently in an environment where interactive email contact is impossible. Therefore, please contact us by phone in case of emergency.

Asahi Intecc expressed its deepest regret for any inconvenience this may cause to its various stakeholders. Further, it stated that at present there is no indication that any customer information and important information were breached.

Asahi Intecc Group has been working on information security measures on a daily basis, but in the future, it will further strengthen the measures and make company-wide efforts to prevent recurrence so that such a situation never occurs.

Asahi Intecc will continue to offer relevant updates via its websites and other means as appropriate.
